In principle, papers are written and submitted on the invitation of one of the Editors, although the Editors would be glad to receive suggestions. Proposals for review articles (approximately 500–1000 words) should be sent by the author(s) to one of the Editors (see listing above). The Editor will evaluate proposals on the basis of timeliness and relevance and inform the author(s) as soon as possible.

*Subscriptions:* PHYSICS REPORTS is published as a review section of PHYSICS LETTERS. Each volume of PHYSICS REPORTS contains approximately 400 pp. PHYSICS REPORTS can be subscribed to separately. The price per volume amounts to Dfl. 300.00, postage included. Subscriptions to PHYSICS REPORTS can be ordered from booksellers and subscription agencies or directly from the Publisher: Elsevier Science Publishers B.V., Journals Department, P.O. Box 211, 1000 AE Amsterdam, The Netherlands.
*Single copies* of issues will be made available at a price which will depend on the size of the issue concerned. Single copies can only be ordered from the publisher and a check should be enclosed with the order. The single copy price of each issue will be published in the issue.

*Claims for missing numbers* should be made within three months, following the date of publication. The Publisher expects to supply missing numbers free only when losses have been sustained in transit and when stock will permit.
